

General explanations and information for the public

Emergency

Dear Worshipers,

Home Front Command emergency guidelines **prohibit mass gatherings**- public events and private events in places that are not protected!!! Please, make sure to follow the guidelines in full and to stay away from dangerous places. Therefore:

We will make sure **only to worship in protected spaces**
(Large protected spaces and bomb shelters in the synagogue)
and according to the capacity of the place.

Prayers will take place only at fortified synagogue buildings
Only in the protected space.

Gatherings will be prohibited at synagogues without a protected space!

We believe that the public is familiar **with the importance of following the rules to save lives.**

We call on the public to focus its prayers on the safety of our dear soldiers - that they may come back quickly and in peace to their families, and that peace and security return to Israel, amen!

Remember **And you shall watch yourselves very well** -
That is the call of the hour
